Written Request for Early Admission to Kindergarten

According to T.C.A. 49-6-3001, for children who miss the August 15 cut-off for kindergarten enrollment, parents may request early admission if their child's birthday is no later than September 30 of the current school year.

Child's name: _____ Date of Birth _____

Please state in your own words why you are requesting early kindergarten admission for your child and provide any evidence that you have that would indicate he/she is ready academically, socially, and emotionally to begin kindergarten. *(Please use back of form for any additional space needed.)*

I understand that my child will be assessed for intellectual, academic, and developmental readiness. Based on these results, the assessment team will determine whether my child is eligible to enroll early into kindergarten in the Marshall County School District.
