If you encounter difficulties, we welcome the opportunity to help you as you proceed through your high school career. All students will receive a student handbook which contains pertinent information and discipline procedures for parental and student review. Students and parents will be asked to sign verifying the knowledge of this information. **While many of the policies in this book are taken from Marshall County School Board Policies and are intended to convey the meaning of the official policies, they may not be presented in exactly the same way. For an accurate reading of official policy, please contact the administration of Forrest or visit the policy link of the Marshall County School System website. At any time during the school year, the administration may make any changes to the student handbook as deemed necessary to maintain a safe and productive school environment.**

ALCOHOL AND DRUG USE – POLICY 6.307

Students will not consume, possess, use, sell, distribute, or be under the influence of illegal drugs or alcoholic beverages in school building or on school grounds, in school vehicles or buses, or at any school sponsored activity at any time, whether on or off school grounds. This includes but is not limited to abuse of inhalants and prescription drugs. Disciplinary sanctions will be imposed on students who violate standards of conduct required by this policy. Such sanctions will be consistent with local, state, and federal laws, up to and including suspension/expulsion as well as referral for prosecution. Completion of an appropriate rehabilitation program may also be recommended.

ALCOHOL AND ILLEGAL/CONTROLLED SUBSTANCES – POLICY 6.3071

Students will be notified in writing at the beginning of each school year or at the time of enrollment that they shall be subject to testing for drugs and alcohol during the school year. Principals are authorized to order drug tests for individual students when there is a reasonable cause to believe that the school board policy on alcohol and drug use has been violated; a search of lockers produced evidence of a presence of drugs or alcohol; a search of persons and containers produced evidence of a presence of drugs or alcohol; or a search of vehicles produced evidence of the presence of drugs or alcohol; or through observation or other reasonable information reported by a teacher, staff member or other student that a student is using, or under the influence of, drugs or alcohol on school property.

Upon receiving reasonable information, the principal shall take the following steps: call the student into the principal's office or another private place; summon an appropriate witness to the proceeding to assist in furtherance of the proceeding; inform the student of the substance of the information available to him/her, which is the basis for the determination that a test is necessary; inform the student of the procedures which shall be followed in administering the test; give the student an opportunity to decline the test and inform the student that if the test is not taken, the penalty shall be suspension from school and a hearing before the disciplinary hearing authority; and notify the parent or guardian of the student of the impending test.

Two appropriate witnesses (certified personnel) shall take the student to a designated place in the school and collect a specimen from the student. The specimen shall be taken in a manner which will protect the privacy rights of the students and which will assure that the integrity of the specimen itself is not compromised. If a parent or guardian is on school premises, he/she will be given the opportunity to witness the specimen collection. The type of specimen taken shall depend on the substance in question and the test performed on the specimen shall be appropriate for accurate detection of the substance in question. Once taken, the principal shall give the specimen an identifying number which in no way will reveal the identity of the student. The principal will forward a written, certified copy of the analysis from the laboratory accredited by the Tennessee Department of Health and Environment and designated by the board.

Upon receiving a written, certified copy of the analysis from the laboratory, the principal shall do one of the following. If the results of the analysis are negative, all evidence of the individual test, including all records in the school that the test was ordered and the reasons thereof, shall be destroyed. The subject's parent(s) shall have the right to be present when the records and evidence are destroyed. If the results are positive, the student and parents or guardian shall be given the written notice of the result. In addition, they shall receive referral information which shall include counseling, inpatient, outpatient, and community-based drug and alcohol treatment programs.

Due to the severity of the drug use problem, both locally and throughout the state, students involved in any voluntary extracurricular activities shall be subject to random drug tests. Parents and students will be

informed of this policy prior to participation and shall sign a consent to the drug testing and a release of information as a condition of participation.

ALTERNATIVE PLACEMENT PROGRAM – POLICY 6.319

The goal of the Alternative Placement Program (APP) is to provide an alternative public education setting for students whose problems have attained a level beyond the home school's ability to deal with them: said school must have exhausted all other recourses prior to recommending APP, or the student must have committed a major violation of school board policy. Placement will be for a minimum of 20 days in attendance or until the student has successfully completed his/her individual improvement plan in the Alternative Placement Program. Additional days may be assigned if deemed necessary by the principal. Unsuccessful days (days the student did not meet the goals established or days missed) will not count toward time served.

- (1) The Board shall operate an alternative school program for students in grades 7-12 who have been suspended or expelled from regular school programs. Sixth grade students may be placed only in unusual circumstances.
- (2) The alternative school shall be operated pursuant to the rules of the state board of education pertaining to them, and instruction shall proceed as nearly as practicable in accordance with the instructional programs at the student's home school. All course work completed and credits earned in the alternative schools shall be transferred to and recorded in the student's home school, which shall grant credit earned and progress thereon as if earned in the home school.
- (3) Attendance in alternative school programs shall be mandatory and students attending an alternative school shall provide their own transportation.
- (4) The student shall be subject to all rules appertaining thereto. A violation of such rules by a student may result in the student's removal from the school for the duration of the original suspension or expulsion, but shall not constitute grounds for any extension thereof. The final decision on such removal shall be made by the chief administrator of the alternative school.
- (5) Teachers in alternative schools shall be certified by the state and shall be selected on the basis of interest and ability to work in alternative situations.
- (6) Student-teacher ratios shall be small enough to allow for adequate instruction but shall be determined by the age, behavior and academic achievement of students in the program.
- (7) Copies of school records and textbooks shall be provided by the home school.
- (8) Formal transition plans for the integration of students from regular schools to alternative schools and from alternative schools to regular schools shall be developed and implemented.
- (9) The principal or designee will notify the parents in writing that a student has been assigned to Alternative Placement and shall state the reason for such placement.
- (10) The principal or designee will schedule a meeting with the parent or guardian at the home school, at which time they will be informed of the incident or incidents which have determined placement.
- (11) A parent or guardian must then accompany the student to the Alternative Placement Program.
- (12) Students found to be eligible for special education and related services shall be placed and served in accordance with the law and rules relating to special education.
- (13) Students may not attend or participate in any Marshall County School function or activity, and they are not allowed on any other school premises while placed in the Alternative School Program.
- (14) The Alternative school will follow the district calendar and all attendance policies will apply.

ARRIVAL OF STUDENTS

The building will be open for students at 6:30 a.m. and will close at 3:00 p.m. Student arrival and departure should be within this time frame. Students are encouraged to arrive at 7:15 a.m. Students arriving prior to 7:15 must report immediately to the cafeteria. Students are to enter the building upon arrival. Students may not be in any other area of the building prior to 7:15 a.m. Students who are arriving prior to 7:15 a.m. to make up work or receive tutoring from a teacher must have a note from the teacher, must report immediately to the designated classroom, and must remain in that classroom until 7:15 a.m.

UPON ARRIVING ON CAMPUS A STUDENT MAY NOT LEAVE THE CAMPUS FOR ANY REASON WITHOUT PERMISSION FROM THE PRINCIPAL'S DESIGNEE. Students arriving at school after 7:30 a.m. must report to the office to be admitted to class.

ATHLETIC ELIGIBILITY – POLICY 4.301

Participation in extracurricular activities at Forrest School is a privilege; and students involved in extracurricular activities are held to high academic, attendance and behavior standards. Student misconduct during school and/or outside of school can be grounds for consequences by the activity sponsor/coach ranging from a warning to dismissal from the club, sport or activity depending on the severity of the actions but are not limited to these consequences. These consequences would be in addition to any school consequences. No person shall, on the basis of sex, be excluded from participation in, be denied the benefits of, be treated differently from another person or otherwise be discriminated against in any athletic program of the school. Equal athletic opportunity shall be provided for members of both sexes. Interscholastic athletics shall be administered as part of the regular school program and shall be the principal's responsibility. Principals shall ensure that school regulations regarding participation in a sport are reasonable. Athletic schedules shall be filed in each school principal's office. The principal or his/her designee must accompany an athletic team on trips. Transportation of teams to athletic games is approved by the Board provided that the team's school reimburses the Board for mileage. Bylaws of the Tennessee Secondary School Athletic Association shall regulate the operation and control of secondary athletics. There shall be a complete annual physical examination of every student prior to his/her participation in interscholastic athletics. Cost of the examination shall be borne by the parent or guardian of the student. These records shall be on file in the principal's office. It shall be the responsibility of the parent or guardian to provide health and hospitalization insurance for all students participating in interscholastic athletics. No principal or teacher of any school under the control of the Board shall dismiss his/her school or any group of students for the purpose of permitting them to practice or play baseball, football, basketball, or any similar game within the regular school hours of any school day of the week without written permission from the board. This does not prevent the inclusion of regular physical training lesson in the daily school program. Students shall not be disqualified from participation on a school athletic team solely on the basis of participation in another sport except where the season overlaps by more than two weeks. Coaches and other employees of the school district shall not encourage, permit, condone or tolerate hazing activities as part of the athletic program. Forrest students must be present at school on game days of their respective sports and should be present at school on the day following an athletic event. All students will be transported using county vehicles and Forrest students must travel to and from the events with their team members and coaches. Students may travel with their parents in extreme circumstances if they have obtained prior written approval from the Athletic Director and the written approval has been presented to the coach. Students assigned to ISS are not allowed to participate in any activity during the school day. Restricted activities include, but are not limited to: participation in any athletic contests (during the assigned time in ISS), pep rallies, homecoming activities. Students who are in ISS will not be allowed to leave until the regular dismissal time. This includes athletic trips, co-op, pep rallies, club activities, etc.

ATTENDANCE POLICIES – POLICY 6.2001

Attendance is a key factor in student achievement and therefore, students are expected to be present each day school is in session.

The attendance supervisor shall oversee the entire attendance program which shall include:

1. All accounting and reporting procedures and their dissemination;
2. Alternative program options for students who severely fail to meet minimum attendance requirements;
3. Ensuring that all school-age children attend school;
4. Providing documentation of enrollment status upon request for students applying for new or reinstatement of driver's permit or license; and
5. Notifying the Department of Safety whenever a student with a driver's permit or license withdraws from school.

Absences

Absences shall be classified as either excused or unexcused as determined by the principal or assistant principal. Professional documentation shall be required.

Excused absences will be divided into three (3) categories —

- I. **Medical Excuses:** Students must provide valid documentation for absences which details accurate dates of illness (this includes doctors, dentists, and/or health care agencies). Upon returning to school, a student has three (3) school days in which to submit a note. After three (3) days, the absence(s) will become permanently unexcused.
- II. **Personal Days:** Students will be allowed three (3) excused personal days per semester. These days will cover the following types of absences; however, proper documentation must be presented to the office in order for the absence to be excused:
 1. **Personal illnesses, serious family illness, or family emergency —** (a note from the student's parent/ guardian or legal custodian will be required upon the student's returning to school). The note should include the reason(s) for and the date(s) of the absence. Upon returning to school, a student has three school days in which to submit a note. After three (3) days the absence(s) will become permanently unexcused.
 2. **Driver's license** (documentation is required).
 3. **Deaths**
 - A. **In the family —** One (1) day will be excused. Additional days will be excused at the discretion of the principal (program or death notice is required upon return to school)
 - B. **Of others —**The principal may excuse absences with appropriate documentation.
 4. **Religious Holidays or Retreats—** Religious holidays will be excused with proper documentation from the parent. Religious retreats must be pre-authorized by the principal with documentation from religious church/agency sponsoring the retreat.
 5. **College visits** must be pre-approved by the principal, and documentation from the college is required.
 6. **Appearance in court** (documentation from a court official will be required as documentation).
- III. **Extenuating Circumstances:** Absences involving extenuating or unusual circumstances may be approved by the principal on a case-by-case basis.

Any absence without a note is automatically an unexcused absence.

Driver's License Revocation

More than ten (10) consecutive or fifteen (15) reported absences (unexcused) by a student during any semester renders a student ineligible to retain a driver's permit or license, or to obtain such if of age. In order to qualify for reclaiming a driver's permit or license, the student must make a passing grade in at least three (3) full unit subjects or their equivalency at the conclusion of a subsequent grading period.

Military Service of Parent/Guardian

School principals shall provide students with a one-day excused absence prior to the deployment of and a one-day excused absence upon the return of a parent or custodian serving active military service. Principals shall also allow up to ten (10) excused cumulative absences per year for students to visit a parent or guardian during a deployment cycle. The student shall provide documentation to the school as proof of his/her parent's/guardian's deployment. Students shall be permitted to make up school work missed during these absences.

State-Mandated Tests

Students who are absent the day of the scheduled state-mandated test must present a signed doctor's excuse or must have been given an excused release by the principal prior to testing to receive an excused absence. Students who have excused absences will be allowed to take a make-up exam developed by the teacher that will count as 25% of the second semester course grade.

Students who have an unexcused absence shall receive a failing grade on the state-mandated test which shall be averaged into their final grade at 25% of the second semester course grade.

Out-of-School Suspension days are likewise unexcused absences.

The principal shall be responsible for ensuring that:

1. Attendance is checked and reported daily for each class;
2. Daily absentee sheets contain sign in/sign out sheets and indicate students present or absent for the majority of the day;
3. All student absences are verified;
4. Written excuses are submitted for absences and tardiness;
5. System-wide procedures for accounting and reporting are followed; and
6. Students who are absent five (5) days without adequate excuse shall be reported to the director of schools/designee who will, in turn, provide written notice to the parent(s)/guardian(s) of the student's absence. The director of schools/designee shall also comply with state law regarding the reporting of truant students to the proper authorities. In addition, the principal/designee shall initiate meaningful communications with the student and parent(s)/guardian(s) in order to determine the underlying cause(s) of the unexcused absences. The principal/designee shall then develop an attendance plan and coordinate additional services designed to improve the student's attendance. Upon notification that a student has been absent ten (10) days without adequate excuse, the principal designee shall attempt to meet in person with the student and parent(s)/guardian(s) to determine the appropriate services needed to improve the student's attendance. The principal/designee shall document all communication attempts and refine the attendance plan as needed. If a student is required to participate in a remedial instruction program outside of the regular school day where there is no cost to the parents and the school system provides transportation, unexcused absences from these programs shall be reported in the same manner.

Tardies, Early Dismissals And Detention

1. Truancy is defined as an unexcused absence for an entire school day, a major portion of the school day or any portion of any class, study hall or activity during the school day for which the student is scheduled.
2. Any student who misses more than fifteen (15) minutes of a class period will be counted as absent.

Attendance Rules and Penalties

1. A student must present documentation of his/her absence and receive a class admittance note before entering class. Absences are calculated on a block/period basis. Documentation must be turned in within three (3) school days from the date the student returns to school, or the absences will be unexcused.
2. All missed class work and tests (whether from an excused or unexcused absence) may be made up if the student makes the request immediately upon returning to class. Requests for make-up work should be provided by the teacher(s) by 2:30 p.m. the same day. Make-up work must be completed and returned to the teacher within one day per absence.
3. If a student has an illness that requires hospitalization exceeding five (5) school days, the student or his/her parent/guardian may apply to the Special Education Supervisor for a "homebound" teacher to provide instruction.
4. The principal shall be responsible for notifying in writing the director of schools and the parents of the student of any action taken by the school.
5. A student participating in a school-sponsored activity, whether on or off campus, will not be counted absent. The student will be eligible to make up all work missed and will receive full credit for the assignment upon completion of the work. To qualify as "school-sponsored", the activity must be school-planned, school-directed, and supervised by an approved sponsor.

6. Mass exodus, early dismissal, or late arrival of all students, or any segment of students, will not be permitted for any reason except for emergencies such as inclement weather or other unavoidable situations, unless instruction time is made up in full.
7. Student attendance records will be given the same level of confidentiality as other student records. Only authorized school officials engaged in legitimate educational purposes may have access to student information without the express consent of the parent or guardian, if the student is a minor, or the student, if he or she has attained the age of eighteen (18).
8. Foreign exchange students will be dealt with on a case-by-case basis by the principal.

Attendance Committee

1. The director of schools will appoint the Attendance Committee annually from names submitted by the attendance supervisor. The Attendance Committee will consist of the following members: one or two members of the Board of Education, a principal, a teacher and/or counselor, and the attendance supervisor.
2. Any school administrative decision regarding attendance may be appealed to the Attendance Committee. The parent/guardian of the student must make the appeal in writing to the director of schools within five (5) school days following the administrative action.
3. Any Attendance Committee decision regarding attendance may be appealed to the Board of Education. The Board may or may not hear the appeal. The parent/guardian of the student must make the appeal in writing to the director within five (5) school days following the action of the Attendance Committee.

ATTENDANCE PROCEDURES

Students who have been absent must present documentation for absences before 7:30 a.m. or immediately upon returning to school. This excuse must include the student's name, reason for the absence, and signature of verification of the doctor or legal guardian, phone number where the guardian or doctor can be contacted and your first block teacher's name. The note must indicate if a child is unable to return to school. **If this is not documented, a student is expected to return to school following a morning doctor's appointment and must be at school prior to an afternoon doctor's appointment.** Excuses must be provided to within three school days from the date of the student's return to school or the absence will be registered as unexcused.

ATTENDANCE PROCEDURES FOR LEAVING SCHOOL

Students desiring to leave school during the school day must bring a written statement from the legal guardian describing the necessity of the student's dismissal. The statement must be signed by the legal guardian and must include a phone number where the guardian may be reached for verification. This procedure also applies to students who are 18 years of age or older. These notes must be presented to the receptionist prior to the beginning of the school day. A note from the doctor, dentist, or court official must be returned to the attendance box on the following day as verification of the absence being excused or unexcused. If a student must leave school due to an emergency, he or she must contact the main office for administrative assistance in obtaining permission from the legal guardian and approval to leave. After obtaining appropriate approval to leave school, **students must sign out in the front office prior to leaving school.** No student will be sent from the school to perform an errand or to act as a messenger for a staff member. **STUDENTS WHO LEAVE SCHOOL DURING THE SCHOOL DAY WITHOUT FOLLOWING THE PROPER SIGN OUT PROCEDURES AND WITHOUT OBTAINING APPROVAL FROM THE SCHOOL ADMINISTRATION WILL BE DISCIPLINED.**

AUTOMOBILES AND PARKING

Automobile access to the campus is considered a privilege, not a right. Safe and courteous driving is expected of every student driver. Students who drive to school must observe the 5 mph speed limit at all times, and park in the designated areas. Faculty spaces will be marked reserved and may not be used by students at any time. Students must exit the automobiles immediately when arriving on campus and report to the proper assigned area on the building. Students will enter and exit the parking lots using the

properly marked main accesses to the campus. Automobiles driven to school may not display suggestive or derogatory slogans or illustrations that would be offensive to others. Forrest is not responsible for vehicles, which are damaged while on the school campus. Students who violate the guidelines of the use of automobiles and parking on the Forrest campus will be disciplined and will be subject to having their automobile access to the campus revoked.

BUS CONDUCT – POLICY 6.308

In order to maintain conditions and atmosphere suitable for learning, no person shall enter onto a school bus except students assigned to that bus or parents of students or other persons with lawful and valid business on the bus. The school bus is an extension of school activity; therefore, students shall conduct themselves on the bus in a manner consistent with the established standards for safety and classroom behavior. Students are under the supervision and control of the bus driver while on his/her bus and all reasonable directions given by him/her shall be followed. A driver may remove a student in the event that the driver finds it necessary for the safety of the other student passengers or the driver, provided that the driver secures the safety of the ejected student for the uncompleted trip. A driver shall report to school authorities as soon as possible, but no later than the end of the route, any student refusing to obey the driver or exiting the bus without the driver's permission at a point other than the student's destination for that trip.

The Supervisor of Transportation shall be informed by the bus driver of any serious discipline problem and may be called upon to assist if necessary. In the event that an incident takes place near a school, the principal may be called upon to assist. A student may be denied the privilege of riding the bus if the Supervisor of Transportation determines that his/her behavior is such as to cause disruption on the bus, or if he/she disobeys state or local rules and regulations pertaining to student transportation.

DRESS CODE – POLICY 6.310

If the consultation with parents is unsuccessful, disciplinary measures will be taken as per this policy.

In grades 7-12 or 6-12 depending on the grade configuration in each school, school administrators are responsible for enforcing the following standard school attire in a fair manner while applying common sense. Violations will be handled in accordance with this policy.

A student shall be deemed deficient in attendance when he or she drops out of school or has ten consecutive or fifteen total unexcused absences during a single 18-week session. Suspensions shall be considered unexcused. The state requires that the student pay a reinstatement fee and provide documentation from the school to verify compliance with the law when they are eligible to have their driver's license reinstated.

EMERGENCY CLOSING

In the event of severe weather or mechanical breakdown, the school may be closed, delayed, or dismissed early. The Director of Schools will announce the delay of school or early dismissal. Any such circumstances will be announced over all radio and television stations. If no report is heard, it may be assumed that school will open on time.

The grades, report cards, diplomas, or transcripts of a student who is responsible for vandalism or theft or who has otherwise incurred a debt to Forrest may be held until the student and the student's parent or guardian has paid for the damages. When the student and parent or guardians are unable to pay the debt, the school will provide a program of voluntary work for the student. Upon completion of the work, the student's grades, diploma or transcript shall be released. Textbooks are available free to students as a loan. Parents will accept full responsibility for the proper care, preservation, return or replacement of textbooks issued to the student. The condition of each book and a book number shall be recorded by the teacher when the book is issued. The teacher is accountable for assessing fines to students whose textbooks are damaged beyond reasonable wear and tear. The life of the book is considered to be six years. Charges for the lost books will be the remaining life of the book. Damage fines will be based on the wear beyond that normally expected for one year. The following schedule will be followed for damaged or lost textbooks: 1-2 years use 100%, 3-4 years use- 75%, and 5 or more years use – 50%. Fines may be assessed for overdue, damaged, or lost library books. In no event will the one exceed the current cost of replacing the book.

FIRE DRILLS, EXTINGUISHERS, AND PULL CHANGE STATIONS

Fire drills will be conducted at intervals during the school year. The teacher will instruct the class as to which exit they are to use. In order that the drill may be conducted with expediency and safety, students are asked to stay in single file lines and not talk.

The program of studies shall include areas and content in these areas within State Board of Education Regulations and shall be flexible enough to facilitate progress from one stage of development to another, thus providing for more effective student adjustment. The pattern of courses which shall be required of all students in grades nine (9) through twelve (12) shall be in accordance with the Rules and Regulations of the State Board of Education and the Board of Education.

Graduation requirements:

Before graduation, every student shall:

1. Achieve 26 units of credit;
2. Take the required end-of-course exams;
3. Have satisfactory records of attendance and conduct, and
4. Take a series of required examinations.

Special Education Students

The high school diploma will be awarded to students who earn the specified units of credit, and have satisfactory records of attendance and conduct. A special education diploma may be awarded at the end of their fourth year of high school to students with disabilities who have not met the requirements for a high school diploma, have satisfactorily completed an individualized education program, and have satisfactory records of attendance and conduct. Students who obtain the special education diploma may continue to work towards the high school diploma through the end of the school year in which they turn twenty-two (22) years old.

Student Load

All students in grades nine (9) through twelve (12) shall be enrolled each semester in subjects that will allow them to graduate within those four (4) years. Hardship or gifted cases may be appealed by the student to the director of schools with further appeal to the Board.

Graduation Activities

Students who have met all graduation requirements on the day of graduation may participate in graduation activities. If extenuating circumstances exist at any school, the matter shall be presented to the Director prior to graduation activities. Students and parents of graduating seniors must be notified one week prior to the graduation date if the student has not met all graduation requirements. Students are expected to participate in all graduation activities. Graduation apparel shall be determined by the administration of each school and shall be the personal expense of each student, except for students who are eligible to receive free or reduced price lunches. In such cases, the school shall assume responsibility for payment of the cap and gown. All other graduation expenses shall be the responsibility of the student. Graduation ceremonies shall be physically accessible to all students, their parents and/or guardians, and other interested citizens. Students for whom extenuating circumstances make it impossible to participate in graduation activities should make their intentions known to the school principal at least ten (10) days prior to the date of graduation. Students who cannot attend graduation because of their involvement in school approved activities should advise the principal as soon as possible. Students who do not participate in graduation will receive their diplomas, or certificates, from the principal's office on the first work day following graduation ceremonies. Principals shall ensure that students graduating with distinction and state honors are recognized at graduation.

GUIDANCE DEPARTMENT

The primary function of the guidance department is to help the student derive a greater benefit from attendance at Forrest School. To accomplish this goal the guidance counselors are available for help with any personal problems and in obtaining information that can help in making decisions about educational or vocational transitions in life. Such counseling is voluntary. The counselors maintain confidentiality on matters, concerning students. The effort of the counselors is directed toward helping students become

increasingly independent and more skillful in solving their own problems and making their own decisions. Guidance services consist of help in occupational, educational, and personal areas in the lives of students. Most students will be helped by learning as much as possible about more than one college. Bulletins, brochures, and other booklets are available from most of the area colleges and universities. Personal problems are entrenched in home as well as in school backgrounds and much may be gained by sharing part of the problems with another person.

HALL PASSES

To avoid asking to leave the class, students should use the restroom and get a drink of water before the beginning of each class. To ensure the safety and educational progress of all students, hall passes will only be granted for extreme emergencies. Academic work is planned for all students for the entire class session and the class schedule does not allow time for students to leave the class. Students with special medical conditions may bring a doctor's note explaining the need for the student to use the restroom at more frequent intervals. Students may not leave the classroom to visit the guidance counselor or other school personnel. Students may only use the telephone in the office before school, after school, and during rocket time to make emergency phone calls only.

HOMEBOUND PROGRAM – POLICY 4.206

The Homebound Instruction Program is for students who, because of health impairments, are unable to attend the regular instructional program. The program consists of three hours per week provided by a certified and properly endorsed teacher. Students enrolled in the Homebound Program must be present for instruction as scheduled by the homebound instructor. Homebound students must provide legal or medical documentation for absences to avoid truancy petitions. The Board of Education reserves the right to require a parent or guardian to be present during homebound instruction. Students may not work at a public job while enrolled in homebound instruction since they have been deemed unable to attend a regular school program. To qualify for the Homebound Program, a student must have a health impairment of sufficient seriousness to anticipate that the student will be absent for a minimum of ten consecutive school days. The student must be certified by an appropriate health care provider as being health impaired and unable to attend the regular instructional program. The homebound teacher will conduct the M-Team meeting and will develop an IEP for the program. Homebound instruction for pregnant students shall consist of three hours of instruction per week for a period of six weeks. A homebound instruction program for longer than the six weeks period shall only be provided to a student who is certified in writing by her physician as having health complications that prevent her from returning to regular classes.

HOMELESS STUDENTS – POLICY 6.503

In order to ensure that homeless students have equal access to the same free appropriate public education as provided to other students, the following shall apply. Homeless students are individuals who lack a fixed, regular and adequate nighttime residence and include the following:

1. Students who are sharing the housing of other persons due to loss of housing, economic hardship or a similar reason; are living in motels, hotels, trailer parks or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; are abandoned in hospitals; or are awaiting foster care placement.
2. Students who have a primary nighttime residence that is a public or private place not designated for or ordinarily used as a regular sleeping accommodation for human beings.
3. Students who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations or similar settings.
4. Migratory students who meet one of the above described circumstances.

Enrollment Placement

The district will consider the best interests of the student with parental involvement in determining whether the student should be enrolled in the school of origin or the school that non homeless student who lives in the attendance area in which the homeless student is actually living are eligible to attend. To

the extent feasible, and in accordance with the student's best interest, the student should continue his/her education in the school of origin, except when contrary to the wishes of the parent or guardian. If the student is unaccompanied by a parent or guardian, the homeless coordinator will consider the views of the student in deciding where the student shall be educated. The choice regarding placement shall be made regardless of whether the student lives with the homeless parents or has been temporarily placed elsewhere. The school selected shall immediately enroll the homeless student, even if the student is unable to produce records normally required for enrollment, such as previous academic records, immunization records, proof of residency or other documentation. However, the district may require a parent or guardian of the student to submit contact information. The district shall provide a written explanation, including a statement regarding the right to appeal, to the homeless student's parent/guardian, or to the homeless student if unaccompanied, if the district sends the student to a school other than the school of origin ("*school of origin*" is defined as the school that the student attended when permanently housed or the school in which the student was last enrolled) or other than a school requested by the parent or guardian. If a dispute arises over school selection or enrollment in a school, the student shall be immediately admitted to the school in which enrollment is sought, pending resolution of the dispute. The student or parent/guardian shall be referred to the district homeless coordinator, who will carry out the dispute resolution process as expeditiously as possible.

Services

Each homeless student shall be provided services comparable to services offered to other students in the district including, but not limited to, transportation services; educational services for which the student meets eligibility criteria, such as educational programs for disadvantaged students, students with disabilities and gifted and talented students; vocational programs and technical education; school meals programs; preschool programs; before- and after-school care programs and programs for students with limited English proficiency. Homeless students will not be segregated in a separate school or in a separate program within a school based on the student's status as homeless.

Transportation

In the event that it is in the best interest of the homeless student to attend the school of origin, transportation to and from school shall be provided at the request of the parent/guardian or, in the case of an unaccompanied student, the homeless coordinator. If the student's temporary housing is outside the district of the school of origin, the [district name] will work with the school of origin to agree on a method to apportion the responsibility and costs for transporting the student. If an agreement cannot be reached, the costs will be shared equally.

Records

Any records ordinarily kept by the school, including immunization records, academic records, birth certificates, guardianship records and evaluations for special services or programs of each homeless child or youth shall be maintained so that appropriate services may be given the student, so that necessary referrals can be made and so that records may be transferred in a timely fashion when a homeless student enters a new school district. Copies of records shall be made available upon request to students or parents in accordance with the Family Educational Rights and Privacy Act.

The district shall inform school personnel, service providers and advocates working with homeless families of the duties of the district homeless coordinator. The homeless coordinator shall ensure that:

1. Homeless students are identified by school personnel and through coordination activities with other entities and agencies.
2. Homeless students enroll in, and have a full and equal opportunity to succeed in, schools in the district.
3. Homeless families and students receive educational services for which such families and students are eligible, including Head Start, Even Start and preschool programs administered by the district and referrals to health care services, dental services, mental health services and other appropriate services.

4. The parents or guardians of homeless students are informed of the educational and related opportunities available to their children and are provided with meaningful opportunities to participate in the education of their children.
5. Public notice of the educational rights of homeless students is disseminated where such students receive services, such as schools, family shelters and soup kitchens.
6. Enrollment disputes are mediated in accordance with law.
7. The parent or guardian of a homeless student and any unaccompanied youth, is fully informed of all transportation services, including transportation to the school of origin and is assisted in accessing transportation to the school selected.
8. Unaccompanied youths will be assisted in placement or enrollment decisions, their views will be considered and they will be provided notice of the right to appeal.
9. Students who need to obtain immunizations, or immunization or medical records, will receive assistance.

ILLNESS OR INJURY

In case of illness or injury, a student will be cared for temporarily by a member of the school staff and guardians will be contacted. School personnel will render first aid treatment only. If emergency medical treatment is necessary, the parents will be contacted. If guardians are not available, the student will be taken to the emergency room at the hospital. Remember that emergency telephone numbers and the name and telephone number of the student's family doctor must be on file at the school.

IMMUNIZATIONS – POLICY 6.402

State law requires that every student who is admitted to public school must have proof of immunization, as determined by the Commissioner of Public Health. It is the responsibility of the parents or guardians to have their children immunized and to provide such proof to the principal on the school which the student is attending. Exceptions, in the absence of an epidemic or immediate threat thereof, will be granted to any child whose parent or guardian shall file with school authorities a signed, written statement that such measures conflict with his/her religious tenets and practices; or due to medical reasons if such child has a written statement from his/her doctor excusing his from such immunization.

INTERNET USE – POLICY 4.406

The director of schools shall develop and implement procedures for appropriate internet use by students. Activities which are prohibited or illegal include but are not limited to sending or displaying offensive messages or pictures; using obscene language; harassing, insulting defaming or attacking others; hacking or attempting unauthorized access; violation of copyright laws; trespassing in another's folders or files; intentional misuse of resources; using another's password or other identifier; use of the network for commercial purposes; and buying or selling on the internet.

IN-SCHOOL SUSPENSION – POLICY 6.316

Students may be placed in In-School Suspension for behavioral and disciplinary purposes. Students in this program will be housed in a separate area from other students. The educational service of the student will continue, but students will not be allowed to participate or attend any school activities during the assigned period. Students will remain in In-School Suspension until he or she has successfully completed his or her work and has maintained successful conduct for the assigned number of days. Students who are placed in In-School Suspension may not participate in school activities until after 3:00 of the last day of the suspension.

INTERROGATIONS AND SEARCHES – POLICY 6.303

Interrogations By School Personnel

School personnel have a duty to report any reasonable suspicion that a student is carrying, or has carried, a weapon or is violating, or has violated, a provision of the Tennessee Drug Control Act to the principal, the principal's designee or, if the principal and the principal's designee are unavailable and the

offense was committed on school property, to the appropriate authorities. Students may be questioned by teachers or principals about any matter pertaining to the operation of a school and/or the enforcement of its rules. Questioning must be conducted discreetly and under circumstances which will avoid unnecessary embarrassment to the student being questioned. Any student answering falsely, evasively or refusing to answer a proper question may be subject to disciplinary action, including suspension. If a student is suspected or accused of misconduct or infraction of the student code of conduct, the principal may interrogate the student, without the presence of parent(s)/guardian(s) or legal custodians and without giving the student constitutional warnings.

Interrogations By Police (AT Administrator's Request)

If the principal has requested assistance by the police department to investigate a crime involving his/her school, the police shall have permission to interrogate a student suspect in school during school hours. The principal shall first attempt to notify the parent(s)/guardian(s) or legal custodians of the student of the intended interrogation unless circumstances require otherwise. The interrogation may proceed without attendance of the parent(s)/guardian(s) or legal custodians. The principal or his/her designee shall be present during the interrogation. The use of police women or female staff members is desirable in the interrogation of female students.

Police Initiated Interrogations

If the police deem circumstances of sufficient urgency to interrogate students at school for unrelated crimes committed outside of school hours, the police department shall first contact the principal regarding the planned interrogation. Inform him/her of the probable cause to investigate within the school. The principal shall make reasonable effort to notify the parent(s)/guardian(s) or legal custodians of the interrogation unless circumstances require otherwise. The interrogation may proceed without attendance of the parent(s)/guardian(s) or legal custodians. The principal or his/her designee shall be present during the interrogation.

Searches By School Personnel

Any principal, or his/her designee, having reasonable suspicion may search any student, place or thing on school property or in the actual or constructive possession of any student during any organized school activity off campus, including buses, vehicles of students or visitors (*Notice shall be posted in the school parking lot that vehicles parked on school property by students or visitors are subject to search for drugs, drug paraphernalia or dangerous weapons*), and containers or packages if he/she receives information which would cause a reasonable belief that the search will lead to the discovery of:

1. Evidence of any violation of the law;
2. Evidence of any violation of school rules or regulations or proper standards of student or faculty conduct;
3. Any object or substance which, because of its presence, presents an immediate danger of harm or illness to any person.

A student using a locker that is the property of the school system does not have the right of privacy in that locker or its contents. All lockers or other storage areas provided for student use on school premises remain the property of the school system and are provided for the use of students subject to inspection, access for maintenance and search. *Notice shall be posted in each school that lockers and other storage areas are school property and are subject to search.* A student may be subject to physical search or a student's pocket, purse or other container may be required to be emptied because of the results of a locker search, or because of information received from a teacher, staff member or other student if such action is reasonable to the principal. All of the following standards of reasonableness shall be met:

1. A particular student has violated policy;
2. The search could be expected to yield evidence of the violation of school policy or disclosure of a dangerous weapon or drug;
3. The search is in pursuit of legitimate interests of the school in maintaining order, discipline, safety, supervision and education of students;
4. The primary purpose of the search is not to collect evidence for a criminal prosecution; and

5. The search shall be reasonably related to the objectives of the search and not excessively intrusive in light of the age and sex of the student, as well as the nature of the infraction alleged to have been committed.

School officials may conduct hand-held or walk-through metal detector checks of a student's person or personal effects.

Use of Animals

When necessary, dogs or other animals trained to detect drugs or dangerous weapons may be used in conducting searches, but the animals shall be used only to pinpoint areas which need to be searched and shall not be used to search the persons of students or visitors.

Use of Metal Detectors

In view of the escalating presence of weapons in the schools, the Board of Education authorizes the use of hand-held or walk-through metal detectors to check a student's person or personal effects as follows: School officials or law enforcement officers may conduct metal detector checks of groups of individuals if the checks are done in a minimally-intrusive, nondiscriminatory manner (e.g., on all students in a randomly selected class; or every third individual entering an athletic event). Metal detector checks of groups of individuals may not be used to single out a particular individual or category of individuals. If a school official or a law enforcement officer has reasonable suspicion to believe that a particular student is in possession of an illegal or unauthorized metal-containing object or weapon, s/he may conduct a metal detector check of the student's person and personal effects.

A student's failure to permit a metal detector check as provided in this policy will be considered grounds for disciplinary action including possible suspension.

The director of schools shall develop procedures for use of metal detectors.

Searches by Police

If public health or safety is involved, upon request of the principal who shall be present, police officers may make a general search of students' lockers and desks, or students' or non-students' automobiles for drugs, weapons or items of an illegal or prohibited nature.

If the principal has received reliable information which he/she believes to be true that evidence of a crime or of stolen goods, not involving school property of members of the school staff or student body, is located on school property and that any search for such evidence or goods would be unrelated to school discipline or to the health and safety of a student or the student body, he/she shall request police assistance; and procedures to obtain and execute a search warrant shall thereafter be followed.

Anything found in the course of the search conducted in accordance with this policy which is evidence of a violation of the law or a violation of student conduct standards may be:

1. Seized and admitted as evidence in any hearing, trial, suspension or dismissal proceeding. It should be tagged for identification at the time it is seized and kept in a secure place by the principal or the principal's designee until it is presented at the hearing. At the discretion of the principal, the items seized may be returned to the parent or guardian of a student or, if it has no significant value, the item may be destroyed, but only with the express written permission of the director of schools.
2. Any seized item may be turned over to any law enforcement officer. Any dangerous weapon or drug as defined in TCA 49-6-4202 shall be turned over to an appropriate law enforcement official after completion of an administrative proceeding at which its presence is reasonably required.

Whenever the possibility of uncovering evidence of a criminal nature exists, the principal or his/her designee may request the assistance of a law enforcement officer to:

1. Search any area of the school premises, any student or any motor vehicle on the school premises; or
2. Identify or dispose of anything found in the course of a search conducted in accordance with this policy.

The involvement of law enforcement officials is encouraged when there is reasonable cause to suspect that criminal evidence is about to be uncovered.

LIBRARY

The school library is open during school hours from 7:30 a.m. until 2:30 p.m. All Forrest students and teachers may use the library facilities. Attention is directed to the following rules governing the relationship between the student and the library. All books should be returned when they become due. Lost and damaged books will be paid for by the student. No book should be taken from the library without being properly charged at the circulation desk.

LOCKERS

Lockers are assigned to the students at the beginning of each school year. Students are to occupy their assigned locker only. Refusing to locate your books and materials in your assigned locker may result in disciplinary action. Students may use locks if they also provide a key or combination to the lock to the student's 1st block teacher. Locks may be cut off for security purposes. Lockers are school property made available for the student's use. The school administration reserves the right to open and search any locker if a reasonable suspicion has been established. When a student's locker is to be opened for investigation there will be two staff members present. The school is not liable for losses of property or textbooks resulting from the use of school lockers. Do not deface the lockers with stickers or other items.

LOST ITEMS

Forrest School is not responsible for lost items or inappropriate items which have been confiscated by a staff member during the school day or while a student is on campus or attending a school activity.

MEDIA INTERVIEWS

If you prefer that your child's picture or quote not be used in news articles, TV clips or on the Forrest web site, please notify the administration of Forrest in writing prior to Sept. 1 of the current school year.

MEDICATIONS – POLICY 6.405

A student shall not possess any prescribed or over-the-counter medication at any time during the school day, at a school activity, or on school grounds. The purpose of administering medications in school is to help each student maintain an optimal state of health to enhance his or her education. Medications should be limited to those required during school hours and necessary to provide the student access to the educational program. This policy applies during the school day and at school-approved functions. The intent of this policy is to limit the number of medications given in school yet assure safe administration of medications for those students who require them. A designated employee(s) will be assigned by each school administrator to assist in the self-administration by students of medications in school. Related in-service training will be provided. Tennessee Code Annotated 49-5-415 states that the Board may permit an employee "to assist in self administration (by students) of medication." Self-administration by the student with assistance of school staff shall be permitted under the following conditions:

1. The student must be competent to self-administer non-prescription or prescription medication with assistance;
2. The student's condition, for which the medication is authorized and/or prescribed, must be stable;
3. The self-administration of medication must be properly documented;
4. Guidelines, not inconsistent with this section, for the assistance in the self-administration of nonprescription and/or prescription medications by personnel in the school setting, developed by the Department of Education and approved by the Board of Nursing, must be followed;
5. The student's parent or guardian must give permission in writing for school personnel to

assist with self-administration of medication. Such written permission shall be kept in the student's school records; and

6. Assistance with self-administration shall primarily include storage and timely distribution of medication.

When a student is determined by the school administrator and a health care professional (a school nurse or the student's physician) to be incompetent to self-administer medications, this team shall develop and implement an appropriate plan of administration of medication. In determining competency, consideration will be given to mental and physical abilities as well as chronological age. It shall be the duty of the principal of the school to adhere to the following procedures for students requiring self-administration of medication at school. This must be done in order to insure their safety and to avoid adverse reaction and legal repercussion.

Long Term Prescription Medications (In excess of two weeks)

1. Written orders must be provided by a physician, dentist, or nurse practitioner (Health Care Provider) that has the legal right to write a prescription, detailing the name of the drug, dosage, and time medication is to be given. The *Administration of Medication Request Form* must be completed by both the Health Care Provider and the parent or guardian of the student in order that the school may comply with the Health Care Provider's order.
2. Medication must be transported to and from school in the original, pharmacy labeled container by a parent or responsible adult.
3. The person responsible for assisting in administering the medication must read the doctor's orders to become familiar with proper administration, taking care to note the dosage and time as well as the potential benefits and side effects of the medication. All medications given must be recorded on the Medication Record.
4. All medication must be kept in a secured area designated by the principal.
5. Renewal or changes:
 - a. All long-term medication must be renewed at the beginning of the new school year.
 - b. Any change in medication or dosage during the school year requires new documentation.
 - c. Changes in prescription medication shall have written authorization from the licensed prescriber and the parent. The change will be noted on the Medication Administration Form (MAR) without obliterating the previous information. Only a Registered Nurse or Licensed Practical Nurse employed by Marshall County Public Schools can make changes on the MAR. Changes can include but are not limited to: time, dose, addition, discontinuation, etc.
6. All original medication orders must be kept in the school office file and copy given to the teacher responsible for the student when necessary.
7. All medication documentation must be kept on file in the student's health record.
8. At the end of the school year, the parent must remove the remaining or unused medication, or it will be disposed of in an appropriate manner. If the medication order changes during the school year, the parent must pick up remaining or unused medication.
9. If a parent and physician agree that a student should self-medicate without assistance, (e.g. inhaler), this should be indicated on the *Administration of Medication Report Form*.
9. T.C.A. 49-5-415 was amended that under certain circumstances students can carry and self administer inhalers for asthma. The LEA must permit possession and self-administration of prescribed, metered dose, asthma-reliever inhaler by any student with asthma if the student's parent or guardian. Note : School nurses will monitor storage and proper documentation of medications administered on a regular basis to insure that medications are handled properly.

Emergency Medications

Emergency meds need to be available to the student immediately.

- A. The ability of a student to carry emergency medications should be determined by age, competency, and doctor's orders.
- B. All emergency medications will require a current doctor's order on file.

PHILOSOPHY

Forrest School is a 7-12 community school. Our aim is to provide our students with varied learning experiences which will prepare them for a pluralistic society. Therefore, our teachers cultivate the intellectual, social, moral, aesthetic, and physical qualities of our individual students. To prepare students for the challenges of an ever-changing society, attention is given to providing a sound foundation of basic skills and knowledge that will enable the student to progress from level to level throughout the system and to enter post-secondary activities of their choice, whether it be post-secondary education or the workforce. Recognizing that students have different needs, backgrounds, career aspirations and goals, Forrest seeks to provide a pupil centered curriculum to meet those needs. Basic proficiencies in major disciplines are required by all. Quality courses are provided for the academically oriented students, the vocationally inclined student, and those students with special learning difficulties. Each student is encouraged to develop responsibility, values, and respect for the rights of others. We encourage, in all courses of study, the ability to think and communicate critically, as well as creatively. To implement these goals, we believe

that discipline is essential to the maintenance of the learning environment and to the personal growth of each student.

PHONE CALLS

Only emergency messages will be delivered to the students. Students will not be called out of class to receive phone messages. Work related calls will not be delivered to the students. The nature of this inquiry will vary in degree with the seriousness of the offense and the consequence attached thereto. For minor offenses where corrective measures are taken by the classroom teacher, no formal procedure is required. An inquiry will be made into incidents to ensure that the students are accurately identified, that they understand the nature of the offense that they know the consequences of the offense for which they are accused, and give their account and events and offer witnesses in their defense.

The Board is committed to maintaining equitable employment/educational practices, services, programs and activities that are accessible and usable by qualified individuals with disabilities.

Definition

Section 504 of the Rehabilitation Act of 1973 provides that: No otherwise qualified individual with handicaps in the United States...solely by reason of his/her handicap, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance. *Title II of the Americans with Disabilities Act, 1990* provides that: No otherwise qualified individual with a disability shall be discriminated against in regard to job application procedures, the hiring, advancement, or discharge of employees, employee compensation, job training and other terms, conditions and privileges of employment.

Coordinator

The Board shall designate at least one employee to coordinate its efforts to comply with and carry out its responsibilities under the Americans with Disabilities Act (ADA) and Section 504, including any investigation of any complaint alleging non-compliance with the Acts or alleging any actions that would be prohibited by the Acts.

Notice

The Board shall make available the name, office address and telephone number of the ADA/Section 504 coordinator. Methods of initial and continuing notification may include the posting of notices, publication in newspapers and student and employee handbooks and distribution of memoranda or other written communications.

Complaint Procedure

The coordinator will hear ADA/Section 504 complaints. Complaints may be submitted orally or in writing to the coordinator who will endeavor to accomplish prompt and equitable resolution of complaints alleging any action that would be prohibited by the ADA/Section 504. The coordinator will respond to all complaints within twenty (20) days with a written response as well as information on further grievance procedures that may be followed if the complaining party is not satisfied with the coordinator's proposed resolution.

Due Process Hearing Procedures

Section 504 of the Rehabilitation Act of 1973 provides the right to an impartial due process hearing if a parent wishes to contest any action of the school system with regard to a child's identification, evaluation, and placement under Section 504.6 If a parent/guardian requests a Section 504 hearing, the parent/guardian has the right to personally participate and to be represented at the hearing by an attorney or advocate at the parent's expense. Contested actions or omissions that are appropriate for a Section 504 hearing should involve identification, evaluation, or placement issues involving a child who has or is believed to have a disability.

Request for Hearing

A parent/guardian who wishes to challenge an action or omission with regard to the identification, evaluation, or placement of a student who has or is believed to have a disability as defined by Section 504, shall make an oral or written request for a due process hearing to the Section 504 coordinator. The request shall be submitted on or reduced to writing on a form provided through the Central Office.

Impartial Hearing Officer

The director of schools or his/her designee shall appoint an impartial hearing officer to preside over the hearing and issue a decision. Such appointment will be made within fifteen (15) days of the date of receipt of a request for a due process hearing. The hearing officer will be hired as an independent contractor at no expense to the parent. The hearing officer that is appointed shall not be a current employee of the school system and shall not be related to any member of the Board of Education. The hearing officer need not be an attorney but shall be familiar with the requirements of Section 504 and the hearing procedures under Section 504. The choice of an impartial hearing officer is final and may not be presented as an issue at the due process hearing since such an issue would not relate to the identification, evaluation, or placement of a disabled child under Section 504. If a parent/guardian disputes the impartiality of the appointed hearing officer, he/she may raise such issue in a review of the hearing officer's opinion by a court of competent jurisdiction or in a complaint to the Office for Civil Rights.

Continuances

Upon a showing of good cause, the hearing officer, at his/her discretion may grant a continuance of the hearing date and set a new hearing date.

Legal Representation at Hearing

If a parent/guardian is represented by a licensed attorney at the due process hearing, he/she must inform the Section 504 coordinator and the appointed hearing officer of that fact, in writing, at least seven (7) calendar days prior to the hearing date, or the hearing can be continued upon the coordinator's request. The school system shall not have legal representation at the hearing unless the parent provides notice that he/she will have legal representation.

Pre-Hearing Conference

The hearing officer may order a Pre-Hearing Conference during which the parent/guardian or his/her representative will state and clarify the issues to be addressed at the hearing. The Pre-Hearing Conference will also serve to resolve preliminary matters, clarify jurisdictional issues, and answer the parties' questions regarding the hearing process. The Pre-Hearing Conference can be held via telephone or in person depending on the hearing officer's decision based on the convenience to both parties.

Dismissals

If, after the Pre-Hearing Conference, the hearing officer finds that the parent, as a matter of law, alleges and/or raises no factual claims or legal issues that come within his/her jurisdiction as a Section 504 hearing officer, he/she may dismiss the hearing and issue an order to that effect explaining the basis for such finding.

Hearing

The hearing shall be conducted in an informal, non-adversarial manner. The hearing shall be closed to the public unless the parent/guardian requests an open hearing. The hearing officer may reasonably limit testimony and introduction of exhibits for reasons or relevance.

Recording

Instead of a formal written transcript produced by a court reporter, the entire due process hearing will be video recorded. The school system shall provide a copy of the recording to the parent/guardian upon request. In order for an accurate recording to be made, the parties and witnesses shall introduce themselves at the beginning of their presentations. If a parent/guardian appeals the decision of the hearing officer to a court of competent jurisdiction, the school system shall prepare a written transcript of the hearing to be offered to the court as an exhibit.

Witnesses

Witnesses will present their information in narrative form, without the traditional question and answer format of legal proceedings. Cross-examination of witnesses will not be allowed, but a party may request that the hearing officer, at his/her discretion, ask a witness a certain question.

Format of Presentation

Each side will have an equal amount of time to present their positions as determined by the hearing officer. The parent/guardian will present his/her case first by making an opening statement outlining the calling witnesses, and making a closing argument. The school system will present its side next. At the end of the school system's presentation, the parent/guardian may offer a short response. Each side may present personally or through their representatives.

Submission of Exhibits

As part of their presentations and at the discretion of the hearing officer, the parties may submit any reports, evaluations, correspondence, notes, or any other documents that may support their positions. Exhibits submitted to the hearing officer by either party must be marked. The hearing officer may, in the exercise of his/her discretion, reasonably limit the number of documents to be submitted for his/her review, as well as the number of witnesses and the length and/or scope of their presentations or statements.

Closing Arguments

The hearing officer may allow or request written closing arguments summarizing and characterizing the information presented at the hearing.

Decision

The hearing officer may make an oral ruling at the conclusion of the hearing or take the case under advisement and issue a written opinion. Such decision shall address all of the issues raised by the parent/guardian as well as any corrective actions, if any, the school system must take. Any issue or claim raised by the parent/guardian that is left unaddressed by the hearing officer in his/her decision will be deemed to have been denied. The decision must be issued within forty-five (45) days after the date the Request for a Due Process Hearing is received by the district. The hearing officer may not award attorneys' fees as a part of the relief granted to a parent/guardian or the district.

Review Procedure/Appeal 33

If the parent/guardian is not satisfied by the decision of the hearing officer, he/she may seek review of the decision in a court of competent jurisdiction.

SPECIAL EDUCATION SERVICES – POLICY 4.202

Special Education and related services are mandated by Federal and State Law to be provided at no cost to parents for eligible students. These services must be designed to meet the unique needs of the student and are supervised and directed in a public school setting that meets state standards. These services are provided for ages 3-22 or from preschool through high school. Placement must be provided in the least restrictive environment with other students who do not have a disability, as much as possible. Parents should contact the school guidance office for information concerning the available programs.

SPECIAL EDUCATION STUDENTS – Policy 6.500

All disabled students between the ages of three and twenty-one (inclusive) shall receive the benefit of a free appropriate public education. This provides the assurance that these students will be educated with nondisabled students to the maximum extent appropriate, and should be placed in separate or special

classes only when the severity of the disabled is such that education in regular classes cannot be achieved satisfactorily. Eligibility standards and options of service for special education services will be based upon the criteria for disabling conditions specified in Rules, Regulations, and Minimum Standards, Tennessee State Board of Education. Students receiving special education services shall not be restrained, except as permitted by law.

STUDENT CODE OF CONDUCT

The Tennessee General Assembly, through TCA 49-6-4012, mandated that each local education agency formulate a code of acceptable behavior and discipline to apply to the students in each school operated by that agency. The code shall contain the type of behavior expected from each student, the consequences of failure to obey such standards, and the importance of the standards to the maintenance of a safe learning environment where orderly learning is possible and encouraged. This code of conduct has been developed to provide school personnel with a model code for student conduct and to provide students and parents with an understanding of expected behavior and the consequences of failing to adhere to these expectations. The Director of Schools shall be responsible for the overall implementation and supervision of the Board of Education's adopted Code of Behavior and Discipline and shall ensure that students at all schools are subject to a uniform and fair application of the Code. The Principal of each school shall be responsible for the overall implementation and administration in his/her school and shall apply the Code uniformly and fairly to each student at the school without partiality or discrimination. The Marshall County Board of Education has approved this Code for implementation in all schools. A copy of the Code will be provided to all parents, teachers and administrative staff members. Copies will be posted in the schools for students' reference. Teachers and/or other appropriate school personnel shall explain and discuss the Code with the students in their respective classes. The Code shall be referenced in all student handbooks. The code is posted on the Marshall County School System web site at www.mcs@k12.tn.us. The teaching of self-discipline is one of the ultimate goals of any educational program. Self-discipline is at the heart of the development of strong character and an enthusiasm for learning. Students who have a high degree of self-discipline demonstrate qualities such as positive self-esteem, cooperative attitude, self-confidence, respect for the rights and property of others, and self-control. The Board of Education is responsible for promoting a free and appropriate public school education; promoting and encouraging a positive working relationship with parents/guardians; keeping parents/guardians informed of their children's academic progress and general conduct; and promoting a school environment that is safe, well organized, free of inequities, and academically exciting. Parents/Guardians are responsible for serving as strong, continuous sources of support and encouragement to promote student success; ensuring that their children are punctual and attend school daily; maintaining consistent and adequate control over their children's conduct so that students demonstrate acceptable behavior in the schools; and working cooperatively with school personnel in ensuring their children's best academic efforts at home and at school. The Marshall County Board of Education Policy 6.313 and Tennessee Code annotated and Federal Laws TCA 49-6-4018, 49-6-4001 through 49-6-4105 and 49-6-3001h describe the Levels of Discipline that will be observed by students. Minor infractions on the part of the student which impede orderly classroom procedures are considered Level I offenses. Misbehaviors in which the level of frequency or seriousness tends to disrupt the learning climate of the school are considered Level II offenses. Acts directly against person or property, the consequences of which do not seriously endanger the health or safety of others in the school are considered Level III offenses. Acts which result in violence to another's person or property or which poses a threat to the safety of others in the school are considered Level IV offenses. A reference list of student issues and the corresponding board policy and Tennessee Code Annotated law can be found in the Policy attachment of the Marshall County School System website.

No funds shall be expended by the school for any such meeting beyond the incidental costs associated with providing meeting space. Groups meeting under this policy may be required to pay a reasonable fee for compensating school personnel in the supervision of the activity.

No student may be compelled to attend or participate in a meeting under this policy.

2. There is an appropriate method of selecting student speakers which is based on neutral criteria;
3. Student speakers do not engage in speech that is obscene, vulgar, offensively lewd, indecent or promotes illegal drug use.
